

# HOLOMORPHE

Think about Stanley Meyer's water electrolyser !

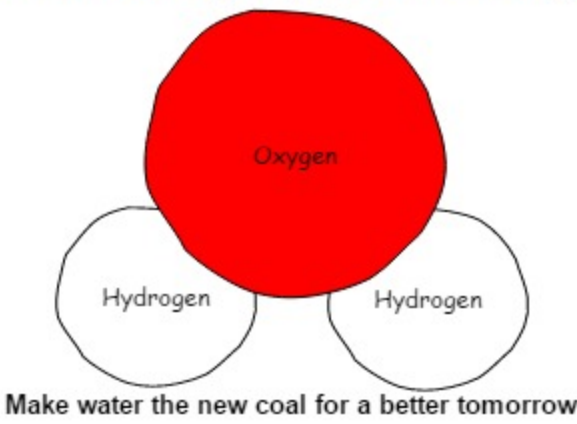

Table of Mendeleev

Chemical element	Atomic number	Chemical symbol	Atomic mass or molar mass in g per mol	Average price in USD per kilogram	Location
Hydrogen	1	H	1.008	3.70	No natural resources / Artificial production by methane vapor forming or partial oxidation of oil or coal gasification or electrolysis of water or electronic polarization of water molecule with Stanley Meyer water electrolyser / United States / China / United Kingdom / European union / Canada / Russia / Norway
Helium	2	He	4.00260	4.99	No natural resources / Artificial production by fractional distillation of natural gas, or diffusion of raw natural gas through semi-permeable membranes or other barriers, or by bombarding lithium or boron with high-energy protons / United States
Lithium	3	Li	6.940	9.39	Argentina / Australia / Bolivia / Brazil / Canada / Chile / China / Democratic Republic of the Congo / United States / Germany / Mexico / Czech Republic / Spain / Portugal / Mali / Russia / Serbia / Zimbabwe
Beryllium	4	Be	9.01218	831.60	United States / China / Kazakhstan
