

HOLOMORPHE

Think about Stanley Meyer's water electrolyser !

Business model canvas

Key partners

Manufacturers of methanation reactors

Manufacturers of precision mechanical parts by laser cutting

Manufacturers of precision mechanical parts by 3D printing

Screw and fastener manufacturers

Manufacturers of dihydrogen pressure sensors

Temperature sensor manufacturers

Volume sensor manufacturers

Acrylic tube manufacturers

Container manufacturers

Pipe manufacturers

Electrical equipment manufacturers

Computer hardware manufacturers

Key activities

Production of synthetic methane by methanation

Production of dihydrogen by electrolysis of water

Key resources

Water electrolysers based on the inventions of Stanley Meyer

Stainless steel pipes

Electrical and electronic elements (wires, coils, transformers ...)

Plumbing elements (connection hoses, valves, nipples ...)

Fastening elements (screws, brackets, lugs ...)

Computer elements (domain name, website, virtual private server ...)

Real estate elements (building land, containers, fences ...)

Furniture elements (shelves ...)

Material elements (drill, jigsaw, nail saw ...)

Value propositions

Production of gaseous dihydrogen by water electrolysis with very high efficiency and very low power consumption

No use of geopolitical metals

No use of electrolytes

No use of high amperages

Customer relations

Email

Phone

Mail

Distribution channels

Biomethane site connected to a natural gas network

Industrial plant connected to a natural gas network

Customer segmentation

Natural gas suppliers

Cost structure

Wages / social security contributions

Taxes

Electricity

Machinery / Equipment / Tools

Premises

Company vehicles

Insurance costs

Bank charges

Business domiciliation fees

Accounting and auditor fees

Quality certification fees

Revenue stream

Sale of gaseous dihydrogen injected into a natural gas network

Sale of synthetic methane injected into a natural gas network

Legal notice

Terms and conditions

Contact

Agreement for the provision of materials in french

General conditions of sale of digital content not supplied on a material medium in french

Sale of databases of mathematics

Reporting

Computer-aided design

Contents

Application software publishing services on a flat-rate basis and under remote control only

Resume of Mr Jason ALOYAU
